PITBULL® WEAR PLATE

Strongest, Lowest Profile Clamp Just Got **STRONGER**

Mitee-Bite Products introduces the Pitbull® Wear Plate. This shim provides a hard barrier between Pitbull® Clamp and fixture, preventing distortion of back wall when using aluminum or mild steel fixtures. Simple solution to keep fixtures light, maintain full clamp travel and holding forces at max pressure. Refurbish old fixtures or add to existing aluminum fixtures to maximize machining capabilities.

When using Wear Plate, increase **WP** .025"/.63mm to maintain same **A** and **D** dimensions.

Part No.	Screw Size	Pitbull Part Number	No. of Plates Per Pack	List Price
26001	4-40	26000, 26010, 26015	8	\$18.25/pk
	M2.5	56000, 56010, 56015	8	
26021	8-32	26020, 26030, 26040	8	\$18.75/pk
	M4	56020, 56030, 56040	8	
26051	1/4-20	26050, 26060, 26065	6	\$15.00/pk
	M6	56050, 56060, 56065	6	
26071	3/8-16	26070, 26075	4	\$10.15/pk
	M10	56070, 56075	4
