

# NEW GENERATION PVD GRADE T8430

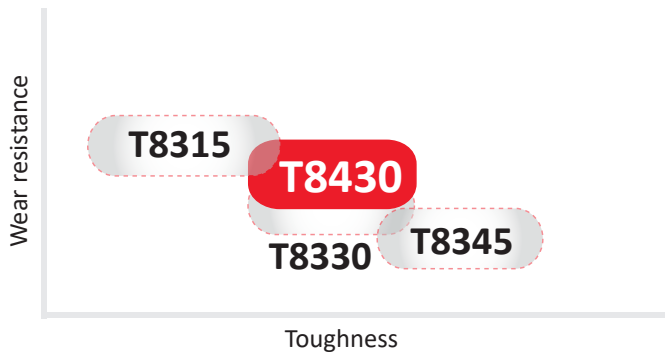

Introducing the NEW T8430 Turning Grade, which is the upgraded T8330, it is our most versatile for general machining, heavy roughing and suitable for unfavorable conditions.

### Features and Benefits

- Multi-layered PVD coating with up to 69% more durability compared to T8330
- Unique Titanium-Boron-Nitride top layer
- Thick TiN coating for crater wear resistance
- Hard AlTiN layer for flank wear resistance
- Bright gold TiN layer to support wear detection

### AREA OF APPLICATION PVD TURNING GRADES

### Developed for

- Steel
- Cast Steel
- Stainless steel
- Cast-iron
- Super alloys
